OFFICES · SCHOOLS · PUBLIC SECTOR

Apollo OS

A modern, secure desktop for your company PCs – without per-seat license fees.

WHO IT IS FOR

Companies and organizations with many workstations that want lower costs and more control.

THE PROBLEM

Operating system licenses, forced upgrades and hardware that is “too old” for the next version cost money every year.

WHAT YOU GET

1. **Familiar from day one**
   A clean desktop with start menu and taskbar – employees feel at home immediately.
2. **No license fees per seat**
   Built on proven open-source foundations.
3. **Gives older PCs a second life**
   Runs smoothly on hardware other systems no longer support.
4. **Windows apps where needed**
   Specific Windows applications can still be used on the desktop.
5. **Managed for you**
   Installation, updates and remote support from our team.

> **Why Apollo Innovation?** Branded, preconfigured and supported by us – one image for every workstation in your company.

COMMON QUESTIONS

Will our office files still work?
Yes – common document formats are fully supported.

Can we try it first?
Yes, on a few test workstations before any rollout.
